ARCHITECTURAL WALLS

...fyi, today we changed everything we did yesterday – again...seriously. Real walls you can move in minutes, with no mess. Very nice.

Faster, more sustainable space division.

Imagine floor-to-ceiling walls engineered for sustainability. TrendWall pre-manufactured modules install without construction mess or waste, and can be rapidly reconfigured with reusable parts, fewer trades and no demolition. And with SCS Indoor Advantage Certification on all components, TrendWall helps address indoor air quality and contribute points for LEED projects.

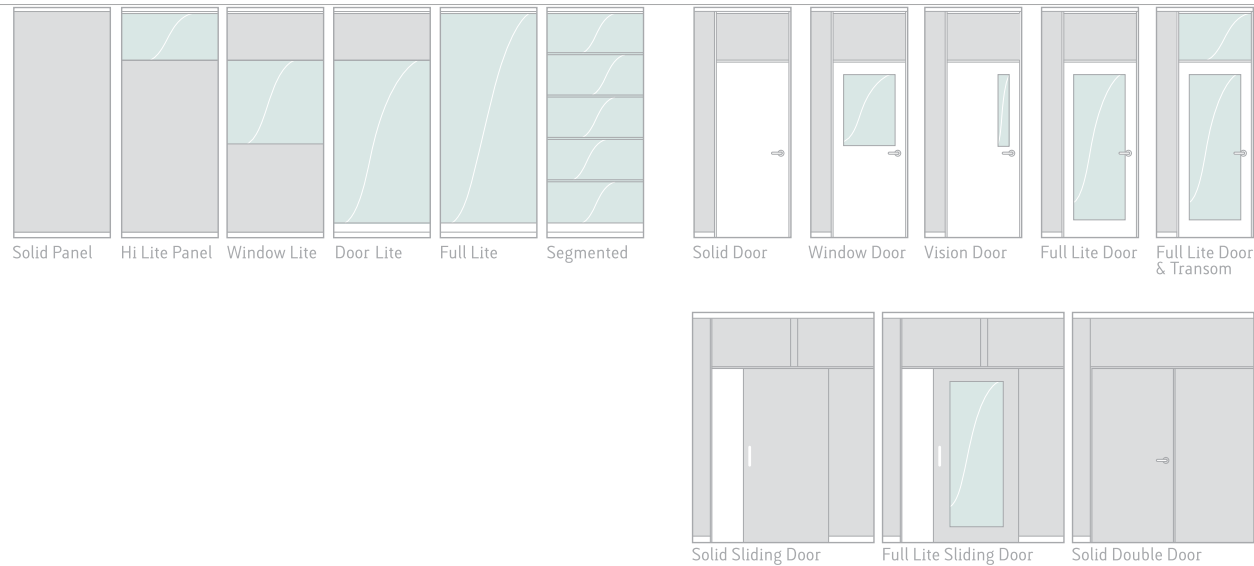

SHOWN AT LEFT: TrendWall Glazed Panel Installation.

Smarter, more configurable building options.

4 >

TrendWall offers flexible architectural planning, expanded capacity for utility and technical infrastructure, and integration with both building architecture and systems furniture. In addition, a broad palette of standard surface materials and finishes, plus the capacity for almost limitless custom and special materials, means TrendWall can achieve wall solutions that harmonize with, or accent, an existing interior plan. SHOWN AT RIGHT: TrendWall merges manufacturing and office environments to create a more connected workforce.
